MSc in MIS
MASTER OF SCIENCE IN MANAGEMENT OF INFORMATION SYSTEMS
PARAGON INTERNATIONAL UNIVERSITY

This Master of Science in Management of Information Systems is designed to prepare students for challenging careers involving the design, analysis, implementation, and operation of computer-based information systems. MIS involves the use of technologies in organizations and the integration of computer skills with the functional areas of management. MIS professionals are the "communication bridge" between business needs and technology. Graduates of the MIS program can pursue careers as Business Analysts, IT Consultants, Systems Analysts, IT Development Project Leaders, Database Administrators, Business Intelligence Analysts, Data Analysts, Web Developers, and Information Systems Managers.
