## ADMISSION REQUIREMENTS

- **BACHELOR'S DEGREE**  
Diploma/ Certificate
- **ACADEMIC TRANSCRIPT**  
Bachelor's Degree Transcript
- **A STATEMENT OF PURPOSE**  
(approximately 500 words)
- **ENGLISH PROFICIENCY**  
(minimum TOEFL IBT 70 / IELTS 6.0 / Passing Paragon.U English Proficiency Test)
- **RECOMMENDATION LETTER**

## ADMISSION PROCESS

- 1 ONLINE APPLICATION**  
on [my.paragoniu.edu.kh/form/application/master](https://my.paragoniu.edu.kh/form/application/master)  
or email at [sgs@paragoniu.edu.kh](mailto:sgs@paragoniu.edu.kh)
- 2 REVIEW OF APPLICATION**  
by the Admission Committee
- 3 RECEIVE LETTER OF ADMISSION/  
REJECTION**  
from the School of Graduate Studies
- 4 ENROLL AT PARAGON.U**  
for admitted students

Flexible schedule to  
accommodate working student

International academic  
staff and learning  
environment

Use of blended learning  
(in-class and online)

## PROGRAM FEE

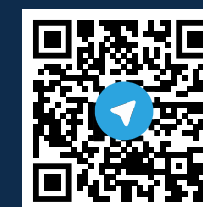

TUITION FEE  
PER SEMESTER **USD 2,500**

TUITION FEE  
PER YEAR **USD 5,000**

REGISTRATION FEE **USD 500**

SCHOLARSHIP  
OPPORTUNITY **UP TO 50%**

# MBA | BUSINESS ADMINISTRATION

Paragon International University's MBA degree enables professionals from various fields to acquire the essential skills for career advancement and leadership. The program offers an interactive learning environment designed to meet the needs of students while fostering networking opportunities with other professionals. Its core curriculum covers key areas such as leadership, human resource management, marketing, and finance, while a range of elective courses allows students to specialize in specific areas of management.

The program aims to equip students with skills for leadership and career success by engaging them in research on contemporary management theory and practice. It enhances critical and creative thinking through active learning and case studies, while also developing students' competencies in business analytics and evidence-based decision-making. Furthermore, it strengthens their problem-solving abilities, preparing them to navigate and excel in dynamic, fast-changing environments.

# MA | EDUCATIONAL LEADERSHIP

Paragon International University's Master of Arts (MA) degree offers professionals from various fields the opportunity to gain essential skills for career advancement and leadership. The program fosters an interactive and student-centered learning environment, tailored to meet the practical needs of working professionals. It also encourages networking and collaboration among peers across industries.

The MA program is designed to equip graduates with a solid understanding of the managerial role within organizational settings. It emphasizes core disciplines in pedagogy and educational leadership, including curriculum development, finance, HR management, marketing, and legal and ethical issues in school leadership. Students also explore various research methods applicable to the study of management and leadership. Moreover, the program places a strong focus on strategic thinking, aiming to develop students' ability to apply critical problem-solving and decision-making skills to real-world organizational challenges.

# MSc | COMPUTER SCIENCE

The Master of Science in Computer Science is a rigorous and forward-looking graduate program designed to equip students with both the theoretical foundations and practical expertise required to design, develop, and manage advanced information technology systems. With a growing focus on artificial intelligence, data science, and intelligent automation, the program prepares students to address real-world challenges through innovation and computational thinking. Students are expected to contribute to the advancement of the field by participating in academic conferences, publishing research papers in peer-reviewed journals, and collaborating on interdisciplinary projects.

Graduates of the MSc in Computer Science program are well-prepared for careers in academia, research institutions, and industry. They typically pursue roles such as AI Engineer, Data Scientist, Machine Learning Researcher, Software Developer, IT Consultant, Systems Architect, or IT Project Manager. The program cultivates leadership, intellectual curiosity, and a commitment to lifelong learning, empowering graduates to lead in the age of AI and digital transformation.

# MSc | MANAGEMENT OF INFORMATION SYSTEMS

The Master of Science in Management of Information Systems is an interdisciplinary graduate program designed to develop future leaders at the intersection of business strategy, information technology, and organizational intelligence. Rooted in both technical proficiency and managerial insight, the program equips students with the knowledge and skills necessary to design, analyze, implement, and manage computer-based information systems that support decision-making and strategic planning. With a strong emphasis on Business Intelligence (BI), data analytics, and digital transformation, the curriculum integrates modern technological tools with core principles of management.

Graduates of the MSc in Management of Information Systems program are uniquely positioned to take on strategic roles across a wide spectrum of industries. Career opportunities include Business Intelligence Analyst, Data Analyst, Systems Analyst, IT Consultant, Information Systems Manager, Web Developer, Database Administrator, and IT Project Leader. MIS professionals serve as the vital link between technological innovation and organizational performance, playing a central role in shaping the future of intelligent enterprises.
